

**MISSION STATEMENT
HELLERTOWN BOROUGH AUTHORITY**

The Mission of the Hellertown Borough Authority (HBA) is one of public water and sewer service to the citizens of Hellertown and adjacent municipalities. We are charged with making evidence-based decisions (1) to ensure the highest quality drinking water through stewardship of our water resources and meeting regulations, and (2) through regular maintenance and improvements to our water and sewer infrastructure to prolong their useful life both for the foreseeable and distant future (100 years). We pursue these goals mindful of the financial resources necessary to achieve them and the financial realities of our rate-paying customers.

HBA will work in concert with the Borough and surrounding municipalities to facilitate expansion of its customer base when opportunities and abilities arise.

HBA will also seek alternative forms of revenue when available including external grants when opportunities arise, all within the guiding context of Local, State and Federal regulations.

**Adopted by the Board of Directors
August 9, 2017**
